Windows 10 release history

View a history of all monthly security and non-security preview updates released for Windows 10 versions in support or receiving extended support. Note that the Update type column references each monthly update by the year and the month of its release, followed by a letter indicating the week of the month (B is the second week of the month; D is the fourth week of the month). Out-of-band updates are referenced as OOB. This shorthand notation aligns with what you see in Microsoft Intune. For more information, see Type of update releases.
