Issue/Introduction

Product lifecycle information for Broadcom software division products: CA, Symantec, and VMware products, including:

- General Availability (GA)
- End-of-Service (EOS)
- End-of-Life (EOL)
- End of Support Life (EOSL)
- End of Service (EOS)

Resolution

To access the product lifecycle for the Broadcom software divisions (Mainframe, Enterprise, Cybersecurity, Payment security, VMware Cloud Foundation, Tanzu, Application Networking and Security), follow the below steps.

1. Log in to the Broadcom support portal.
2. In the upper right menu, click the division drop-down.
3. Select the division for hardware or software.

4. To access Product Lifecycle, navigate to My Dashboard and locate "Quick Links" on the right sidebar.

Note: Mainframe products for z/OS refer to Mainframe for z/OS Lifecycle.

Additional Information

Commonly requested EOL/EOS products:

- Automic Automation
- Blue Coat / Bluecoat
- CA API Gateway
- CA Directory
- CA Spectrum
- Cloud Workload Protection (CWP)
- Content Analysis (CAS) - S200, S400, S500, S400-30
- DX NetOps
- Data Loss Prevention (DLP)
- Dollar Universe
- ESXi
- Edge 2000
- Edge SWG (formerly ProxySG) / Advanced Secure Gateway (ASG) - SG-400, SG-400-20, SG-500, SGOS 6.7
- Ghost
- Horizon Cloud
- Introscope
- Management Center
- Messaging Gateway
- PGP Command Line
- Security Analytics

- SiteMinder
- VMware Cloud Provider
- VMware Player
- VeloCloud SD-WAN and SASE
- Workstation Pro 17
- vCenter
- vSphere
